EDUCATION

B.E -Artificial Intelligence and Machine Learning

Rajarajeswari college of Engineering

2020 -2024

CGPA 7.2

SKILLS

- **Programming Languages:** Python, Javascript
- **Web Development:** React JS, HTML, CSS
- **Databases:** MySQL
- **Data Analysis & Visualization:** Power BI, MS Excel, SQL

INTERSHIPS

Machine Learning with python ,Varcons Technologies

Aug 2023-Oct 2023

Role: Social Media Sentiment Analysis Intern

- Developed and implemented machine learning models using Python to analyze social media sentiment.
- Extracted, pre-processed, and analyzed large datasets of user-generated content from various platforms.
- Utilized Natural Language Processing (NLP) techniques for text analysis, classification, and sentiment scoring.

PROJECTS

Project-I: AI Tool for Preliminary Diagnosis of Dermatology Manifestation

- Developed a secure web application for predicting skin diseases from histopathology images.
- Implemented machine learning algorithms to analyze and classify skin disease images.
- Designed a user-friendly interface tailored for rural populations to ensure accessibility.
- Provided features for user login, image upload, disease prediction, and recommended treatments.

Project-II: Volume Control Using Hand Detection

- Developed a system that controls volume through real-time hand gesture detection.
- Utilized computer vision techniques to recognize hand signs for increasing or decreasing volume.
- Implemented with a focus on enhancing user experience and convenience through intuitive gesture-based interactions.

Project-III: Gym Management System

- Developed a management system to organize data of gym trainers and members across multiple gyms under one franchise.
- Streamlined data entry and retrieval processes, enhancing efficiency in gym operations.
- Planned future enhancements to improve usability and introduce advanced tools for better management.

COURSES [Pentagon Space | Python, Full Stack Web Development]

- **Python:** Proficient in writing scripts, automating tasks, and working with libraries for web development and data manipulation.
- **HTML/CSS:** Experienced in building responsive web pages with structured, semantic HTML and modern CSS for styling.
- **MySQL:** Competent in designing and querying relational databases for web applications
